

Dear Colleagues, participants of the World Congress “Biocosmology and Cancer”, concurrently with the 14ISBC – 14th International Symposium on Biocosmology, entitled as “Recognizing Teleological and Integralist approaches in contemporary biology, medicine and health sciences; and reinstating the Aristotelian scientific Organicism (Entelechial naturalism, teleological physics)”!
Our preliminary Program is attached.

You see that we have a rich program, and, therefore - in order to solve all our tasks – we strongly ask you to follow the rule for presenters that might be called as the “20/5 min – 18 slides”-rule, i.e. – the number of slides is limited to the number of 18, while the time of speaking is no longer than 20 minutes, so that thus 5 minutes is set aside for discussion, i.e., in total – 25 minutes for a speaker” (for a student, accordingly – “15/5 min – 14 slides”-rule, in toto – 20 minutes).
As for contributions to the discussion sections of our Program, then the participation therein will be moderated by the chairmen.

We are preparing our Book-of-Abstracts that will be published in the current (Spring 2017) BCnA-Issue; and likewise is planned to be published for your use during the Congress.

In this (and other aspects), we rely on your contribution to our organizational endeavors, and thus announce our Registration fee that is considered to be 75USD (for professors), and 25USD (for students and accompanying persons).

Our venue and the place for accommodation is the Sheraton Grand Hotel, Cracow - <http://www.sheratongrandkrakow.com/>

As for the tourist options and other issues, please use the link to <https://14isbc.jordan.pl>

On this website you can book the room (as an option) at Legend Hotel, choose the tours in Krakow and its surroundings, and book transfer from/to airport (John Paul II International Airport Kraków–Balice).

Our contact address is to:

Agnieszka Grzesiak | Congress Bureau General Manager

T: +48 12 341 61 62 /64, M: +48 508 042 217, www.jordan.pl

Our BCA information (you know) is given at our website - <http://en.biocosmology.ru>

All the best to your preparations and travel to Cracow!

Looking forward to meeting you in Polish leading centre of academic, cultural, and artistic life, and the motherland of Copernicus,

With kindest regards,

Prof. Rudolf Klimek

Biocosmology Congress Chairman – Email: mmklimek@cyf-kr.edu.pl
